

MARPAI

NUVOAIR

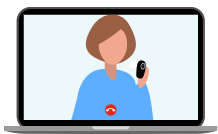

Manage Your Heart and Lung Health from Home with NuvoAir

Marpai members and their families can now access NuvoAir, our new Marpai Connect partner. They are a value-based, integrated specialty care provider who help members stay on top of their heart and lung health with conditions like Asthma, COPD and Congestive Heart Failure.

Get empowered with personalized specialist care

NuvoAir gives you and your loved ones an extra level of support for your heart and lung health.

Virtual Visits

Book same-day appointments whenever you need help and get care from the comfort of home

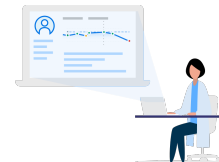

Personalized support

We create personalized care plans tailored to your needs so you can get support that fits your lifestyle

Easy-to-use devices

Every member gets a kit of easy-to-use devices so you can track your health from anywhere

Ongoing care and remote monitoring

We monitor your health over time to keep you, your family, and your care team in the loop

Members love NuvoAir

"It's good to know that someone is monitoring my well-being every week. I feel this service is invaluable."
